PROCLAMATION

Whereas, Paraprofessionals provide support in instructional support, language support, behavioral support, and physical and medical support within a school setting. These professionals are crucial supports to students within our city. While some paraprofessionals work with one class, others work individually with one student. This may range from small groups to students who have IEP's and 504s; and

Whereas, The job of a paraprofessional includes multitasking, encouragement, and serving as an additional layer of support within the school. Paraprofessionals know when to intervene and support a student as well as when to encourage them to be independent. They help shape young minds, and are impactful in their students' lives; and

Whereas, The City of Springfield is proud to join with the Springfield Federation of Paraprofessionals to recognize all our paraprofessionals for their hard work, dedication, and passion for the education of our city's youth. Their work does not go unnoticed, and is extremely important to the success of our Springfield Public School students.

Therefore, I, Domenic J. Sarno, Mayor
of the City of Springfield, do hereby recognize
